

# Dataset Records

---

When you find potentially useful datasets for your work, be sure to take these notes before navigating away!

**Search terms and search tool you used to find this dataset**

**URL - (Also be sure to download a local copy)**

Check to make sure the URL is stable from session to session (try opening the same URL in a different browser). If it is not stable, look for a “stable URL” or “permalink” or similar, or else document how you arrived at your data from the most recent stable URL on the website.

- <https://www.kaggle.com/kemical/kickstarter-projects>

**Date Downloaded**

Datasets can be fluid, so be sure you record when you downloaded your data.

- 10/3/19 - Kickstarter Project Downloaded to computer

**Authorship**

Record the author, Primary Investigator, or Agency that created the dataset

- Mickael Mouille on Kaggle.com

**Exact name of the dataset and version**

There are lots of similarly named datasets, so this will prevent mayhem later.

- Kickstarter Projects - more than 300,000 kickstarter projects

## Time period, geography, and/or scope covered

- Early days of Kickstarter up until 2018. Covered over 300,000 projects internationally.

## Location of dataset overview information

URL or other description of where to find the overview. Note key aspects of the overview in your notes (such as time period, geography, etc). Be sure to save local copies as datasets can be fluid things and documentation may move or change.

- <https://www.kaggle.com/kemical/kickstarter-projects>. The overview is given on the same page as the URL of the dataset. Here it provides names of categories, clarifications, and context of the dataset.

## Location of technical documentation

URL or other description, PLUS LOCAL COPIES THAT YOU SAVE. These may include a codebook, user guide, metadata, documentation, and terms of use. Be sure to save local copies as datasets can be fluid things and documentation may move or change.

- <https://www.kaggle.com/kemical/kickstarter-projects/metadata> This is the location of the metadata of the project. It describes things like usability and in what contexts the data can be used.

## Data formats

Note any useful information about the data formats found.

- They are stored in .csv format in excel spreadsheets. I have downloaded the excel spreadsheets.

## Terms of Use

Are there any restrictions on how you can use these data?

- Attribution-NonCommercial-ShareAlike 4.0 International (CC BY-NC-SA 4.0)
  - We are able to copy and redistribute the material in any format
  - Remix, transform, and build upon the material

- UNDER THESE TERMS: we give appropriate credit, provide a link to the license, and indicate if any changes were made.
  - Can't use the data for any commercial purposes
  - Distribute your contributions under the same license as the original.

## Suggested Citation if provided

You may adjust this citation later to accommodate a particular citation style, but always record the suggested citation in your notes.

- No citation provided
